### About The Mission - Connecting U.S. Businesses to Hong Kong and Greater Bay Area.

The **2023 Hong Kong-Greater Bay Area Trade Mission** aims to bring the U.S. businesses to Hong Kong and the Greater Bay Area to gain on-the-ground China and Asia market exposure and to initiate connections with experts, individuals and organizations that can assist them in navigating the China market. Expected outcomes of the visit will be rich collaborations, and partnerships. This tour will also focus promoting the U.S. as the destinations for China's outbound foreign investment.

Hong Kong has long been a springboard for companies who seek markets and manufacturing in China. With a solid infrastructure of financial and private equity institutions, professional services, and a pro-business government, Hong Kong has an environment for local and foreign companies to thrive and grow in the region. By taking part in the HK Forum, the U.S. delegates can gather resources for developing a set of strategies for China and Asia related business, inclusive of estimates of the kinds of organizations and people with whom they want to link. Through the Federation of Hong Kong Business Associations Worldwide, delegates will build an international network.
